### TOP SKILLS

### EXPERIENCE

#### Allshore Virtual Staffing October 2017 - Present

#### Senior UI/UX Developer

- Determine operational feasibility by evaluating analysis, problem definition, requirements, solution development, and proposed solutions or reviewing current system if it already exists.
- Present ideas for system development/improvement, including project timeline while working closely with clients.
- Produce detailed specifications, writing the program codes, and testing the product in controlled, real situations before going live.
- Document and demonstrate solutions by developing documentation, wireframes, flowcharts, layouts, diagrams, charts, training manuals for users, code comments, and clear code.
- Develop and deploy solutions by determining and designing system specifications, standards, and programming.
- Communicate with clients directly about project requirements and details on a daily basis.
- Improve operations by conducting systems analysis, recommending changes, and suggesting possible solutions.
- Learn about state-of-the-art development tools, programming techniques, and computing equipment. Continue to participate in educational opportunities.
- Develop software solutions by studying information needs, conferring with users, studying systems flow, data usage, and work processes, investigating problem areas, and following the software development lifecycle.
- Regularly commit code to repository servers and back-up work.

**Technologies:** HTML, CSS, JavaScript, jQuery, Bootstrap, SASS, Adobe Photoshop, WordPress Templates, Adobe Illustrator, ReactJS

---

## Moftak Solutions

April 2013 – June 2017

### Web Developer

- Was responsible for development of multiple systems including an event management system and restaurant management database.
- Was responsible for Quality Assurance and testing of my projects as well as bug resolution.
- Developed back-end systems for numerous clients.

**Technologies:** C#, ASP.NET MVC, HTML, Entity Framework, CSS, JavaScript, jQuery, Bootstrap, Foundation Framework, MS SQL Server, Team Foundation Server (TFS), Adobe Photoshop

---

## PROJECTS

### ChilliSauce

Chillisauce is an event management web application that offers activity packages in the UK. Worked on the responsive UI using HTML, CSS, jQuery, and Bootstrap. Was responsible for quality control testing, including mobile application testing to ensure the site worked across platforms. Additionally, I thoroughly tested a desktop application for administration users and created a ticket monitoring system for the development work.

---

### Launchpad 7

Launchpad 7 is an organization for young entrepreneurs that connects them and their startup projects to supporting resources. Was responsible for developing the UI of the site by converting PSD into a responsive application using HTML, CSS, jQuery, and Bootstrap. Also worked partially on the back-end site database using MS SQL Server and Entity Framework.

---

### El Beso Website

El Beso is a Mexican Restaurant in the U.S. that needed a comprehensive website for their menu, pricing, and contact options. Was responsible for developing the UI of the site by converting PSD into a responsive application using HTML, CSS, jQuery, and Bootstrap. Also worked partially on the back-end site database using MS SQL Server and Entity Framework.

---

## EDUCATION

### Bachelor of Science in Computer Science

Islamia University

### Master of Science in Computer Science

Virtual University, Islamabad Campus
