### EXPERIENCE

#### Allshore Virtual Staffing

April 2020 - Present

#### PHP Developer

- Determine operational feasibility by evaluating analysis, problem definition, requirements, solution development, and proposed solutions or reviewing current system if it already exists.
- Present ideas for system development/improvement, including project timeline while working closely with clients.
- Produce detailed specifications, writing the program codes, and testing the product in controlled, real situations before going live.
- Record and demonstrate solutions by developing documentation, wireframes, flowcharts, layouts, diagrams, charts, training manuals for users, code comments, and clear code.
- Develop and deploy solutions by determining and designing system specifications, standards, and programming.
- Communicate with clients directly about project requirements and details on a daily basis.
- Improve operations by conducting systems analysis, recommending changes, and suggesting possible solutions.
- Learn about state-of-the-art development tools, programming techniques, and computing equipment. Continue to participate in educational opportunities.
- Develop software solutions by studying information needs, conferring with users, studying systems flow, data usage, and work processes, investigating problem areas, and following the software development lifecycle.
- Regularly commit code to repository servers and back-up work.

**Technologies:** PHP, WordPress, MySQL, JavaScript, jQuery, HTML, CSS, Bootstrap

---

## Devspot / Troon Technologies

August 2016 - March 2020

### Front End Developer

- Developed multiple websites from scratch to fully responsive through custom coding.
- Developed multiple email templates in Mailchimp to work in all email clients.
- Worked on theme and plugins configurations in WordPress.
- Developed different WordPress sites using themes according to the client's requirements.
- Responsible for the support and maintenance of already developed sites. Includes website file backups, database backup, plugin updates, speed and optimization, and broke links.

**Technologies:** WordPress, HTML, CSS, Bootstrap, jQuery, PHP

---

## PROJECTS

### Kirschcpa

KirschCPA is an accounting firm that provides premier client services and focused attention to small and medium sized businesses. Developed their website from scratch. Wrote all HTML/CSS for this project and then transformed in WordPress according to the need of the client, and ensured everything is easily manageable from the back-end. This site uses a child theme of twenty sixteen theme and has different custom post types. Used HTML, CSS, Bootstrap, WordPress, PHP, jQuery and MySQL.

URL: <https://kirschcpa.com/>

---

### Liquidus

Liquidus is a global digitized economy website. Worked on the development of their website and developed this site in WordPress dynamically under very short deadlines. Used WordPress, PHP, Bootstrap, jQuery and MySQL.

URL: <https://liquidus.io/>

---

### ENAGB

ENAGB Youth Agency focused on providing cultural, employment, life skills, holistic wellness and recreational opportunities to youth ages 12-24. Worked on the development of their website, and created a fully dynamic and responsive site in WordPress using a custom theme. I also customized their event calendar plugin and added different custom post types to manage data easily on back-end. Used HTML, CSS, Bootstrap, WordPress, PHP, jQuery and MySQL.
