TOP SKILLS

Allshore Virtual Staffing

September 2023 - Present

Senior .NET Developer

- Determine operational feasibility by evaluating analysis, problem definition, requirements, solution development, and proposed solutions or reviewing the current system if it already exists.
- Present ideas for system development/improvement, including project timelines while working closely with clients.
- Produce detailed specifications, write the program codes, and test the product in controlled, real situations before going live.
- Record and demonstrate solutions by developing documentation, wireframes, flowcharts, layouts, diagrams, charts, training manuals for users, code comments, and clear code.
- Develop and deploy solutions by determining and designing system specifications, standards, and programming.
- Communicate with clients directly about project requirements and details on a daily basis.
- Improve operations by conducting systems analysis, recommending changes, and suggesting possible solutions.
- Learn about state-of-the-art development tools, programming techniques, and computing equipment. Continue to participate in educational opportunities.
- Develop software solutions by studying information needs, conferring with users, studying systems flow, data usage, and work processes, investigating problem areas, and following the software development lifecycle.
- Regularly commit code to repository servers and backup work.

Technologies: C#, .NET Core, Entity Framework, ASP.NET MVC, Web APIs, JavaScript, jQuery, HTML, CSS, Bootstrap, MS SQL Server

S&P Global

January 2020 - Sept 2023

Senior Software Engineer

- Worked on adding functionalities, using, and customizing the company's own back-end framework built on the .Net tech stack.
- Developed features by leveraging the company's own front-end framework and using a front-end tech stack to create new pages from scratch.
- Worked in scrum and development community teams.
- Attended standup, sprint planning, and retrospective meetings.
- Guided and trained junior resources and contributed to other teams' scrum work in case of availability.

Technologies: ASP.NET MVC, C#, .NET Core, JavaScript, HTML, CSS

Tech Forward

November 2018 - December 2019

Senior Software Engineer

- Wrote high-quality code to meet customer requirements.
- Collected software requirements of customers and developed the application as per their requirements.
- Designed back-end database structures for web applications and generated stored procedures that are complex in nature.

Technologies: ASP.NET MVC, C#, .NET Core, JavaScript, jQuery, HTML, CSS
